5 EMSLAND MOOR MUSEUM IN GROSS-HESEPE IN THE EMSLAND

The Emsland Moormuseum deals with swamp and its influence on the inhabitants for the past centuries. Furthermore, it enables its visitors to get to know the landscape that characterizes our region and allows them to get a glimpse of Emsland's history. The swamp was the only source of income for the people living here. The hard and exhausting work consisted of cutting peat of the ground to use it as a fuel. Since 1950 larger areas of the swamp were reclaimed as part of the so-called „Emsland plan“ in order to develop the lifestyle and economy of the region, which belonged to the poorest and most backward in Germany. The visitors are also able to see machines, like huge plows, in the tour through the exhibition that were used back then.

Intuitive archery is another highlight of our program. It'll take place on the bank of the river „Ems“ in Lingen under the guidance of coaches. So stay tuned!
